

Literacy

Read or watch the story of Goldilocks and the three bears on Youtube – look out for opposites like hot/cold porridge and soft/hard chair - what other opposites can you find?

Watch this lovely story about a girl who did everything in the opposite way!

Hello

Hello St Crispin's Primary Classes 😊
Every week we are going to send out a home learning sheet with some suggested ideas and activities for the week based around a theme.

St Crispin's Primary Classes
Home Learning Week beginning
Monday 18th May 2020

Theme: Opposites

Numeracy

Sort items into different piles of opposites – hard/soft; rough/smooth; wet/dry; etc.

How many things can you find that are soft/hard, big/small, smooth/rough, or any other opposites you can think of. Feel the difference!

Science

Magnetic opposites (Beware of choking hazards)

1.If you have a magnetic train set, explore how the magnets pull together, but if you turn one of the trains round, you can feel them pushing away from each other.
2.You could put two fridge magnets on either side of a sheet of paper/paper plate, move the bottom magnet and the top will move... by magic!

Challenge

Put opposite items in different bags.
Put your hand in and feel each item.

Expressive Arts

Use soft things like cotton wool or tissues as paintbrushes to smear paint onto paper. Then use hard things like corks or bottle tops to stamp out colourful shapes.

Health and Wellbeing

Be useful in the kitchen by helping to cut up soft and hard fruits and vegetables. Only use knives under strict supervision!

Use warm water then cold water to wash and rinse your hands. Feel the difference!

Have something warm like soup then cold like yoghurt or ice cream!
