

## Literacy

Watch a video to find out about your senses

<https://www.youtube.com/watch?v=OEiB9haJwHk>

Listen to a story about the five senses

<https://www.youtube.com/watch?v=8FW2iQaweOg>

Can you find more stories or songs about the senses?

## Hello

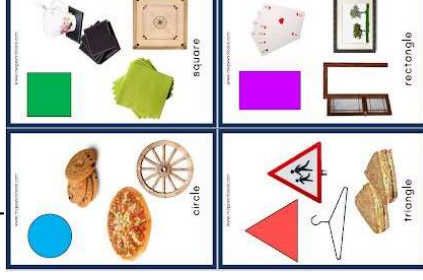

Hello St Crispin's Primary Classes ☺  
Every week we are going to send out a home learning sheet with some suggested ideas and activities for the week based around a theme.

St Crispin's Primary Classes  
Home Learning Week beginning  
Monday 25th May 2020

Theme: The Five Senses

## Numeracy

Look for different shapes around the house.  
Can you see something that's the shape of a square, a circle, a rectangle, or more difficult shapes like a triangle, oval or star?

## Science

Touch – fill balloons with different household items described below or choose your own (nothing sharp!). Feel the different textures.

## Challenge

Get two toilet roll tubes, tape them together to make binoculars. What can you see when you look through them?

## Expressive Arts

When you've finished looking through your tube, make a kazoo with some baking paper and an elastic band. What sounds can you make?

## Health and Wellbeing

When you go for a walk, what kinds of things can you see, feel, smell and touch. Leave the tasting for home!

Try smelling and/or tasting a variety of sweet, salty, sour or spicy foods.
